

Home equity under the hood

Fewer steps, shorter loan cycles, faster funding

Implement a self-driving home equity experience for your customers and teams. With Blend Instant Home Equity, key workflows are fully integrated into one comprehensive solution, enabling an automated and rapid process. By putting origination on autopilot, your team can acquire more customers, grow revenue, and reduce costs. Meanwhile, borrowers can enjoy a personalized experience that gets funds in their hands sooner. Let's take a peek at how Blend's built-in capabilities can shorten a typically lengthy and complex process from weeks to days.

People involved in the process

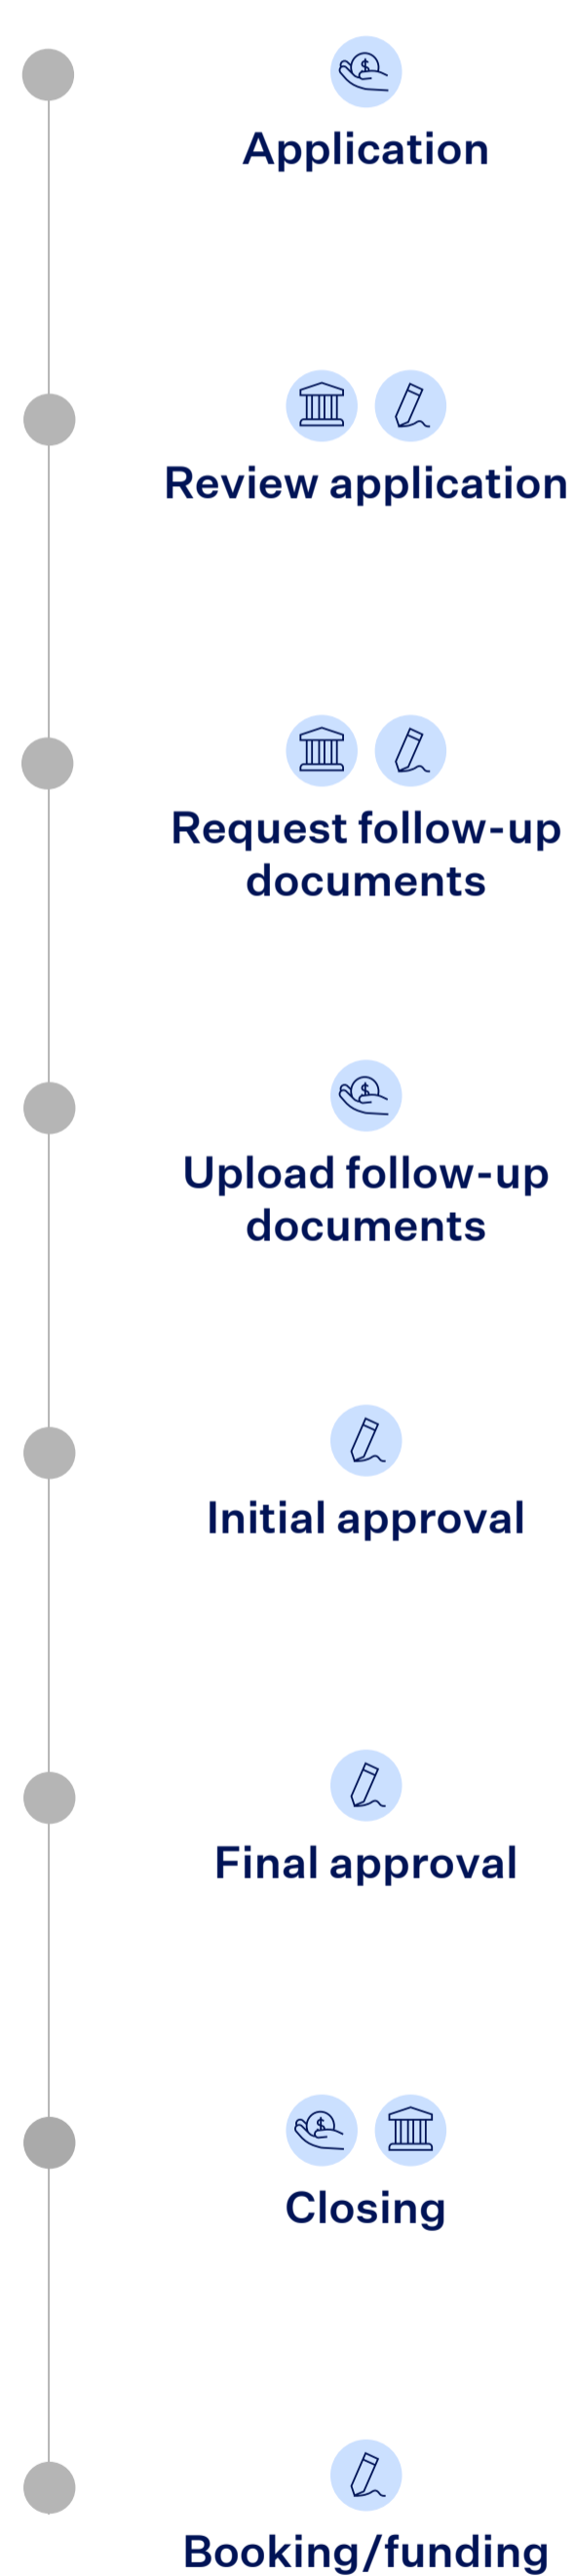

Borrower
 Banker
 Processor/underwriter

With Blend:

Each of these built-in integrations will power a faster, smoother process with fewer steps for all involved.

Without Blend:

Say goodbye to a disjointed process. It's time for an end-to-end solution.
